## Mammal Checklist

### Wasatch Mountain State Park

**B**ecause of its size (23,000 acres) and varying levels of elevation (5,900 feet to over 10,000 feet), Wasatch Mountain State Park is home to a variety of mammals living in several different habitats such as wetlands, sagebrush, grasslands, meadows, and alpine forests.

This checklist is provided as a service to give those interested an idea of what they might find while visiting the park.

Please remember to never disturb wildlife. View them from a safe distance for your safety and theirs. We hope you enjoy your visit to Wasatch Mountain State Park.
